RECEIVED  
OCT - 2 2014  
VILLAGE OF LYTTON

To Lytton Village Council

Oct. 2, 2014

Here is Botanie Forest Service's bid to manage the fuel management program for the 2014 season. For this project I am willing to work with this council to make the fuel management project successful. Botanie Forest Services would need \$2000 dollars for fuel management fire insurance and about \$2000 for accounting. I believe the WCB risk to be about \$2000. Botanie Forest Services will return the \$2000 to the program if there are no claims. Botanie Forest Services has been WCB claims free for the past twenty years. We are willing to manage this project in the same manner as last year but are open to any mutually agreed upon changes.

Sincerely,

  
Jan Polderman
